1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bowman '139.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bowman '139.

It would have been obvious to one of ordinary skill in the art that fasteners, such as 40 in Bowman, could be used on the support frame 22 as well, for a more secure attachment of the rack.

5. Claims 1, 5, 7, 10, 11, 12, and 17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Swiss patent 60086.

6. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Swiss patent 60086 in view of Dutch patent 41365.

It would have been obvious to modify the upper brace member of the Swiss patent as taught by the "inwardly" and "outwardly" bent portions of the upper brace member of the Dutch Patent.

7. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Swiss patent 60086.

Generally, materials are considered to be a matter of choice and design.

8. Claims 6 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claims 14-16 are allowable.
